Juliette 1200

DESCRIPTION

The JULIETTE1200 by Sydney Woodfire Ovens is a very efficient and sturdy self contained wood fire oven designed to consistently cook perfect pizzas and more. Featuring a 1200mm internal cooking area, the JULIETTE1200 is best suited to the social butterfly that regularly entertains. It is perfect for the larger family functions and gatherings, comfortably cooking 6-7 12" pizzas in less than 5 minutes – you will surely impress your guests.

D.I.Y. VS QUALIFIED INSTALLER

Depending on your own skills when it comes to home projects, you may decide to choose the Do-It-Yourself option. Delivered direct to your door and supplied in a modular kit form, the JULIETTE 1200 is easy to install with its compact and stylish design – Or – you can simply have one of our qualified installers deliver to site and fit to completion. Requiring minimal operator training you'll be cooking in no time.

CONSTRUCTION

The JULIETTE 1200 is manufactured from premium quality high strength refractory cement, insulated for maximum heat retention and efficiency. It includes an extra thick dome, collar, and the assurance of quality workmanship throughout and proudly Australian made.

FINISH

We install the JULIETTE 1200 complete with a rendered sponge finish but it doesn't have to stop there – you can get creative with a range of finishing touches, from paint to mosaic, explore your options to best suit your decor.

ACCESSORIES

Standard accessories provided with the kit include stainless steel flue, stainless steel hat and stainless steel door. We also have a range of optional accessories such as pizza peels, brass brush/scrapers and more.

STAND

A stand for the base is required and available upon request. Whether it is a Hebel, steel or custom base, ask us about our designs and let us provide you with options to meet within your budget.
